Behavioral Health Needs Assessment Circuits 3 & 8

FLORIDA DEPARTMENT
OF CHILDREN AND FAMILIES

MYFLFAMILIES.COM

LSF Health Systems is a managing entity contracted with the
Department of Children and Families

AGENDA

- Welcome and Introductions
- Triennial Needs Assessment - What, How, Why, So What?
- Top 5 Needs Identified in 2019 Assessment
- Investments Since 2019
 - \$126M plan 2022
- Region and Circuit data
- Identified Needs in 2022 Assessment
- Q & A

Needs Assessment: What, Why, How, So What?

- **394.9082 F.S. Managing entities shall:**
Conduct a community behavioral health care needs assessment every 3 years in the geographic area served by the managing entity which identifies needs by subregion. The process for conducting the needs assessment shall include an opportunity for public participation.
- LSF Health Systems (LSFHS) considers assessment of need an ongoing process - active presence in community meetings and events provides real time information on system needs. Formal assessments were conducted by WellFlorida Council and M.T.M. Services and included gathering and analysis of quantitative and qualitative data as well as surveys and focus groups for individuals served, stakeholders and providers.

Needs Assessment: What, Why, How, So What?

- This assessment will serve to inform the development of the LSFHS Strategic Plan, the annual enhancement plans submitted to the Department of Children and Families to address unmet needs, and ongoing decisions regarding funding and programmatic investments.
- LSFHS will use this assessment as a call to action, engaging providers, consumers, stakeholders and community members, in creating effective programs and policies and collaborating with other organizations to bring positive change to our communities.

HEALTH
SYSTEMS

Methodology

Generally, the health of a community is measured by the physical, mental, environmental and social well-being of its residents. Due to the complex determinants of health, the Behavioral Health Needs Assessment is driven by both quantitative and qualitative data collecting and analysis from both primary and secondary data sources.

- **Social determinants of health** including socioeconomic demographics, poverty rates, population demographics, uninsured population estimates and educational attainment levels
- **Community Health status** including County Health Rankings, CDC's Behavioral Risk Factor Surveillance Survey, and hospital utilization data
- **Health system assessment** including insurance coverage (public and private), Medicaid eligibility, health care expenditures by payor source, hospital utilization data, physician supply rate and health professional shortage areas
- **Community input** including surveys of consumers, providers and stakeholders as well as focus groups in each Circuit. The data collected through these processes as well as LSFHS service utilization data were analyzed for trends and community priorities

LSFHS Service Area

Top Five Needs Identified in 2019 Needs Assessment

1. Short Term Residential Treatment Beds
2. Substance Abuse Detox, Residential Treatment Beds and Outpatient SA treatment
3. Care Coordination and Housing Vouchers to stabilize and support individuals in the community
4. Co-Responder Teams to divert individuals from acute care and justice system
5. Workforce Investment to recruit and retain qualified staff in key positions

Investments Since 2019

LSFHS Service Area

- 123 additional residential treatment beds
- 30 additional residential SA treatment beds
- 4 new Forensic Multi-disciplinary teams
- 2 new FACT teams +expansion of FACT Lite intensive case management
- 2 new FIT teams
- 5 new CAT teams
- Expanded all Mobile Response Teams to serve all counties and all ages.
- 6 Jail Bridge programs
- 5 new Recovery Community Organizations
- Provider Rate increases to address workforce challenges FY 21/22 and FY 22/23 (in process)

Investments Since 2019

Grants Awarded

- May 2019-Expand Adult Treatment Capacity
\$1.99M SAMHSA grant-Hernando County
- Sept. 2019-Justice and Mental Health
Collaboration \$45,800 Bureau of Justice
Assistance – Duval County
- April 2020-Expand Youth Behavioral Health
Capacity \$1.2M CJMHSa grant- Hernando County
- July 2020-COVID-19 Emergency Response for
Suicide Prevention-\$800,000 SAMHSA grant-
Duval County

Investments Since 2019

Grants Awarded

- Sept. 2020-Opioid Impacted Family Support \$2.4M HRSA grant – Clay Duval, Nassau counties
- Nov. 2020-SETS expansion Peer Recovery and MAT, \$479,780 Florida Blue Foundation Grant- Marion County
- Sept. 2021-Project SETS SBIRT \$4.975M SAMHSA grant- Marion, Lake, Sumter counties
- Oct. 2021-Community Policing Crisis Intervention \$264,044 Dept of Justice grant, Duval County

Investments Since 2019 Grants Awarded

- June 2022 First Responders Regional Support Peer Services
\$1.85M DCF grant. All counties
- December 2022 COACHES High Fidelity Wraparound Project. \$1.6M SAMHSA grant- Putnam and St. Johns counties

Circuits 3/8 Investments

- Expansion of Mobile Response Teams in Alachua, Levy, Dixie, Gilchrist, Baker, Bradford, Union, Columbia, Lafayette, Suwannee, Hamilton counties to serve all ages, adding one clinician to each team
- Williams Manor – 16 adult residential beds
- New FIT team in Columbia and surrounding counties
- Three New Forensic Multi-Disciplinary Teams in Bradford/Alachua, Columbia and surrounding counties and Alachua County
- Two new CAT Teams in C3 and C8
- Family Functional Therapy Evidence-based Team-all counties in Circuits 3/8
- FACT Lite Intensive Case Management-Columbia County
- Mobile MAT capacity in progress

Circuit 3/8 Grants

- First Responders Peer Support

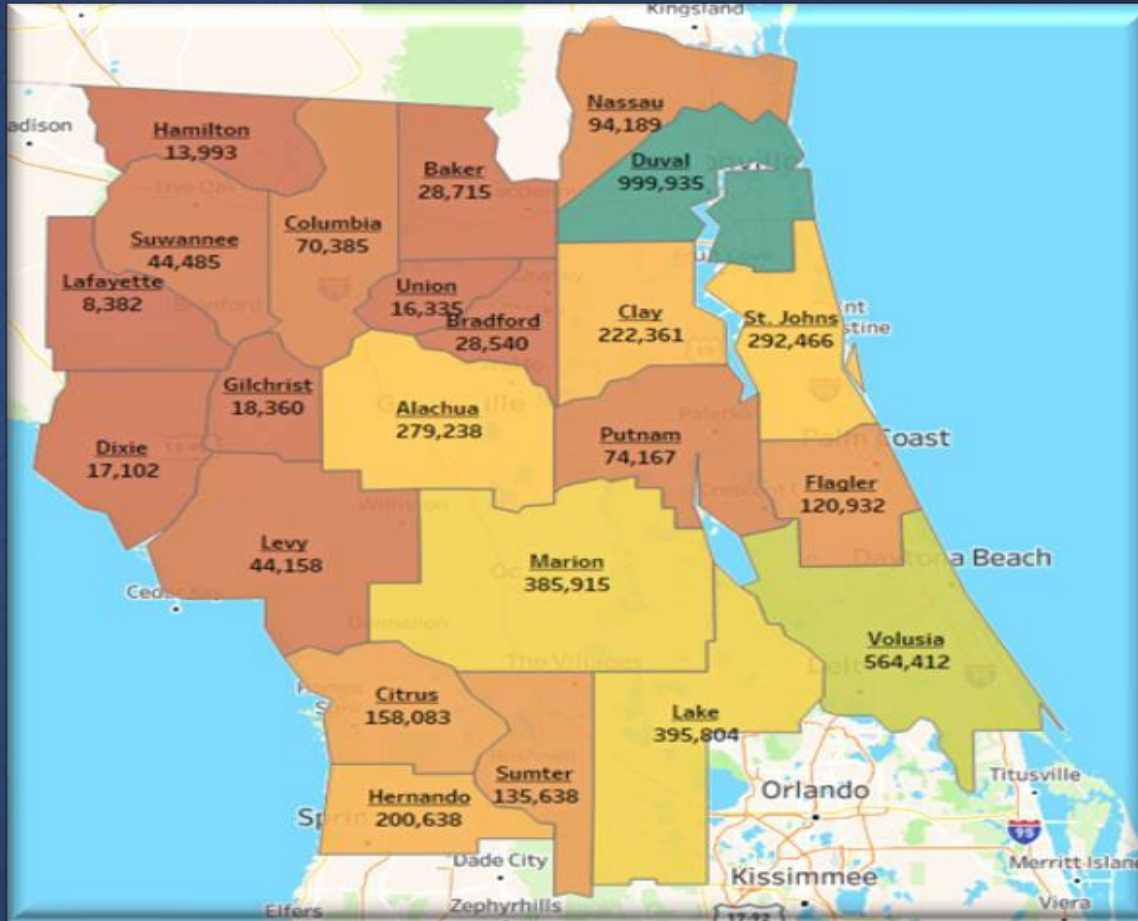

Demographic Data State of Florida

	State of Florida
Total Population	21,538,187 (3 rd largest in US by population)
Total Land Area	53,633.7 square miles
Population/square mile	401.6/square mile
Median Household Income	\$63,062
Poverty	13.1%
Employment Rate	55.4%
Uninsured (under age 65)	16.4%

Individuals Served Survey

Which best describes you?

Individuals Served Survey

Did you know where to go for mental health and substance use treatment services when you needed them?

Individuals Served Survey

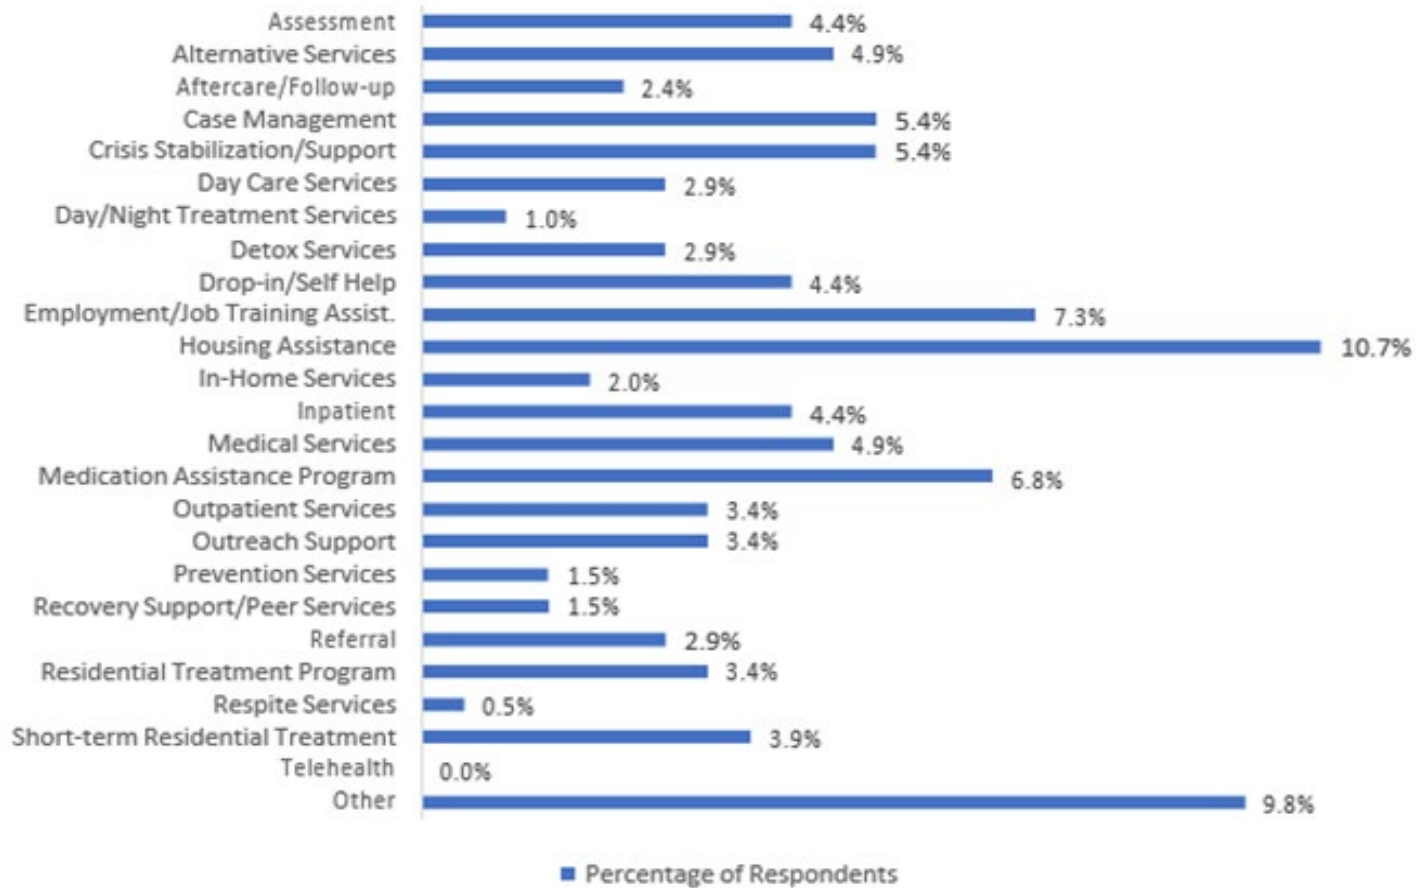

Were you able to get all the services you needed when you needed them?

Individuals Served Survey

If no, please choose from the list below, the services you needed but were not able to get.

Individuals Served Survey

How many times during the last 12 months were you not able to get the services you needed?

Individuals Served Survey

How long did it take from the time you requested an appointment for services to the time you received the services?

Individuals Served Survey

The services and planning I received were focused on my treatment needs (patient centered)

Individuals Served Survey

What were the obstacles you experienced getting the care you needed? (Check all that apply)

Please select the service sector which best describes your organization? (Check all that apply)

Stakeholder Survey

In which county do you provide services? (Check all that apply)

Stakeholder Survey

Stakeholder Survey

In general, behavioral health care and peer services are accessible in your area?

The process for referrals is easily accessible.

List the barriers for consumers accessing services in your community. (Check all that apply)

Stakeholder Survey
