c. Quarterly Expenditure Reports

For each CCP program, the Department will establish a reporting schedule aligned to the underlying grant award. The Managing Entity and each Network Service Provider shall submit a Life-To-Date (LTD) report of program expenses submitted every quarter of service provision. Expenditure Reports must be signed and certified by an authorized representative attesting the report represents a complete and accurate account of all expenses.

Expenditure Reports track actual auditable expenses as reported in the provider’s General Ledger and must be submitted with a detailed Trial Balance report supporting the total amounts reported in relation to the allowable line item categories established in the program budget. The Department will analyze each Expenditure Report and, in the event payments exceed actual costs at the end of any quarter, may require adjustments designed to mitigate the risk of excess payments at the conclusion of the CCP. These adjustments may include, but are not limited to, reductions in payment schedule amounts, temporary suspension of further payments, requests for return of excess payments, or reallocation of funding to other participating providers.

Expenditure Reports will also be used to evaluate the possibility of discretionary federal approval of program extensions. In the event an extension is approved, the Department will provide revised budgets, payment schedules, and reporting schedules to reflect the extended program period.

d. Final Invoice and Expenditure Reports

The Provider shall submit a Final Invoice and the Final Expenditure Report for payment no later than 5/15/2021. Failure to do so will result in a forfeiture of all right to payment and the Department shall not honor any requests submitted after the aforesaid time period. Any payment due under the terms of this

Contract may be withheld until the Final Program Status Report and Final Expenditure Report are submitted and have been approved by the Department.

The Department will approve the Final Invoice payment in an amount not to exceed the Provider's actual direct costs attested to in the Final Expenditure Report.

In the event the Final Invoice amount requested exceeds the Final Expenditure Report amount, the Department shall reduce the approved payment to reconcile to the Final Expenditure Report amount.

In the event the Final Invoice reduction is insufficient to reconcile total payment under this Contract to the actual direct costs attested to in the Final Expenditure Report, the Department shall withhold payment for the Final Invoice and shall request prompt return of the overpayment balance pursuant to **Section 3.5**.

The Managing Entity shall submit **Template 24 Part 2** aggregating all participating Network Service Provider's invoice documentation and including any Managing Entity payments allowable under the approved budget for a specific disaster. The Managing Entity shall submit each Network Service Provider's approved invoice as supporting documentation.

The Crisis Counseling Program will be administered according to DCF Guidance 23, which can be found at following link using the applicable fiscal year: <https://www.myflfamilies.com/services/samh/samh-providers/managing-entities>
