Q1: The packet states that the contract would officially begin March 15, 2025, and that the allotment is per fiscal year. Does this mean that in submitting our application, we are sending a budget for March 15, 2025 – June 30, 2025 (end of FY) or are we submitting based on one entire year (July – June) which will then be divided by twelve months and allocated per the remaining 3.5 months from start to finish?

A1: It would be most helpful if you provided two budgets, one for the remainder of this fiscal year (through June 30, 2025) as also an annual budget that would cover the period July 1, 2025 - June 30, 2026.
